CERTAINTY ADVANCE
Optimizing safety certainty for business and competitive advantage.
ACCELERATE SUSTAINABLE ADVANTAGE.

Go to the next level in business sustainability and safeguarding of assets and budgets. Create competitive advantage. **Advance beyond the status quo to full safety certainty.**

C. SYSTEMIC CERTAINTY

SAFETY PROCESS/PLAN/CULTURE BEST PRACTICES
Define, implement, manage, and optimize safety. Rely on independent, third-party, best practices-based safety strategies, plans, procedures, resources, equipment, and leadership. Leave compromise behind.

TRANSFORMATIONAL LEADERSHIP
Maximize protection of the business, assets, projects, and people through a pervasive safety culture. Rely on decades of direct, hands-on, and proven safety leadership to transform your organization and reputation. Lead your organization, lead your industry.

TURNKEY, OUTSOURCED SAFETY
Shift cost and risk to industry leading safety experts, from basic resourcing through strategy and culture transformation. Obtain the highest level of safety certainty available in the industry.

TECHNOLOGY APPLICATION
Smooth evaluation, adoption, and integration of technologies that deliver safety certainty and protecting the business, asset, project, and reputation.

LEADING KPI MANAGEMENT
Drive continuous improvement and safety-related cost down. Define, track, and report on:
- Risk / hazard assessment and analysis
- Measurement of new safety controls and implementation
- Training rates from expected to completed
- Measurement of certification expectation and achievement
- Employee / contractor turnover rates
- Observation and accident investigation results

OUTPERFORM.
Exceed expectation, create new value, protect your reputation, and lead.

BE SURE AND CONFIDENT WITH CERTIFIEDSAFETY.
